

Tennessee Migrant Education Program Occupational Survey FAQ

1. What is the Occupational Survey?

The Occupational Survey is a tool that Tennessee uses to meet our state requirements and correctly identify and recruit all eligible migrant children residing in Tennessee. The 3-question survey is given to all students.

2. May the Occupational Survey be included in a packet of information provided to new students?

Yes. This would be an efficient method for assuring that all new students receive the survey. Monitoring teams from the state may ask to see the information packet given to students new to the district in order to confirm that the survey has been distributed.

3. To whom do I send completed surveys?

All surveys with at least one "yes" answer should be sent to the District Migrant Liaison and uploaded to the TNMigrant secure server site (tn.msedd.com) upon receipt.

4. Do I have to keep a copy of the completed survey in the student's file?

Yes. Completed Occupational Surveys (both surveys with **Yes** and **No** answers) must be kept in the student cumulative file at the school or in a file in a centralized location, such as the district office. Each year the previous school year Occupational Survey will be replaced in the cumulative folder with survey for the current school year. At all times there should be an Occupational Survey in each student's cumulative file and these will be verified during state monitoring team visits.

5. What if the parent does not want to complete the survey?

Ultimately, as with any survey, the parent may make the decision not to complete and return the information. It is possible that out of fear or lack of understanding of how the information provided may be used, a parent may be reluctant to provide information. Every effort should be made to collect completed surveys for the purposes of identifying potential migrant students and assisting the state in its compliance with ESSA responsibilities. If the Occupational Survey is not returned within 10 business days, the district should reach out to the family to see if they need translation or interpretation services. If the family does not complete or marks N/A, the district should note the date the family was contacted for support and a district employee should initial and date the form before placing in the cumulative folder.

6. Can the Occupational Survey be completed online?

Yes. If your district uses an online system for student enrollment and registration, you may add the Occupation Survey to your online platform and ask parents to complete the survey online.
